

Summary of key messages and action items
Working Group 1 meeting, 4 June 2015

KEY MESSAGES

Workgroup One is looking at the Goal: *Access to integrated service provision across the lifespan to address the multi-dimensional aspects of autism.*

Having reviewed those aspects of the work plan for which the Working Group has delegated responsibility, it is clear that the parameters of that responsibility need to be better defined and actioned. It was appreciated that the broad remit is to facilitate rather than being hands on but a balance needs to be struck whereby certain projects and plans are formally set up, monitored and evaluated. The synergy between this and other groups also needs to be enhanced. The Chairs of the Working Groups are to meet with Scottish Government and Autism Network Scotland representatives soon where it is anticipated that this will happen.

ACTION ITEMS FROM LAST MEETING

1. **ACTION ITEM:** RI will feed back key discussion points (on dementia presentation) to Governance Group – DONE (sent via email on April 15)
2. **ACTION ITEM:** TW will find 2013-2016 Scottish Strategy on Dementia and forward to group – DONE
<http://www.gov.scot/Topics/Health/Services/Mental-Health/Dementia/DementiaStrategy1316>
3. **ACTION ITEM:** AE to look to see what AAA resources exist (GP letters, etc) for NES/ANS web resources – in progress. AE experiencing login issues but Lynsey Stewart from ANS is assisting.
4. **ACTION ITEM:** PL to send (his organisation's) autism training plan/programmes to TW for distribution to group - DONE
5. **ACTION ITEM:** PL to send contact information for network offering autism training to MCS - MCS and PL are going to meet with the small training team at Yarrow to look at what Glasgow is doing in terms of the NES Framework and now they can collaborate going forward

NEW ACTION ITEMS

1. **ACTION ITEM:** EH to forward key messages to group members and requested that they come back to her in a couple of days with their responses.
